INDE 122

Kitchen and Bath Design

This is an example of a residential kitchen project, featuring navy blue cabinets, marble surfaces, and a functional layout focused on circulation, usability, and balanced design.

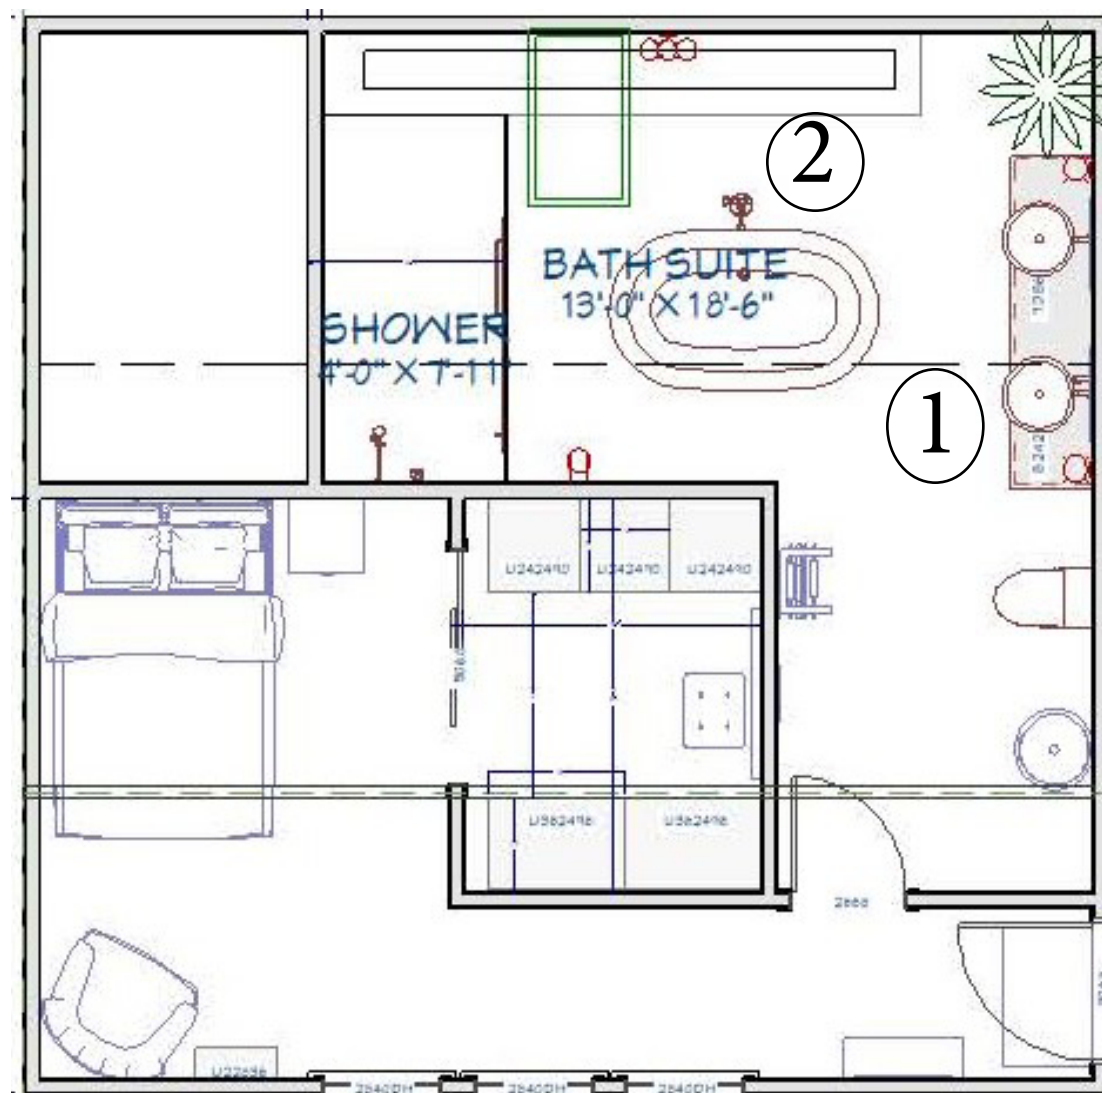

KITCHEN

INDE 122

Kitchen and Bath Design

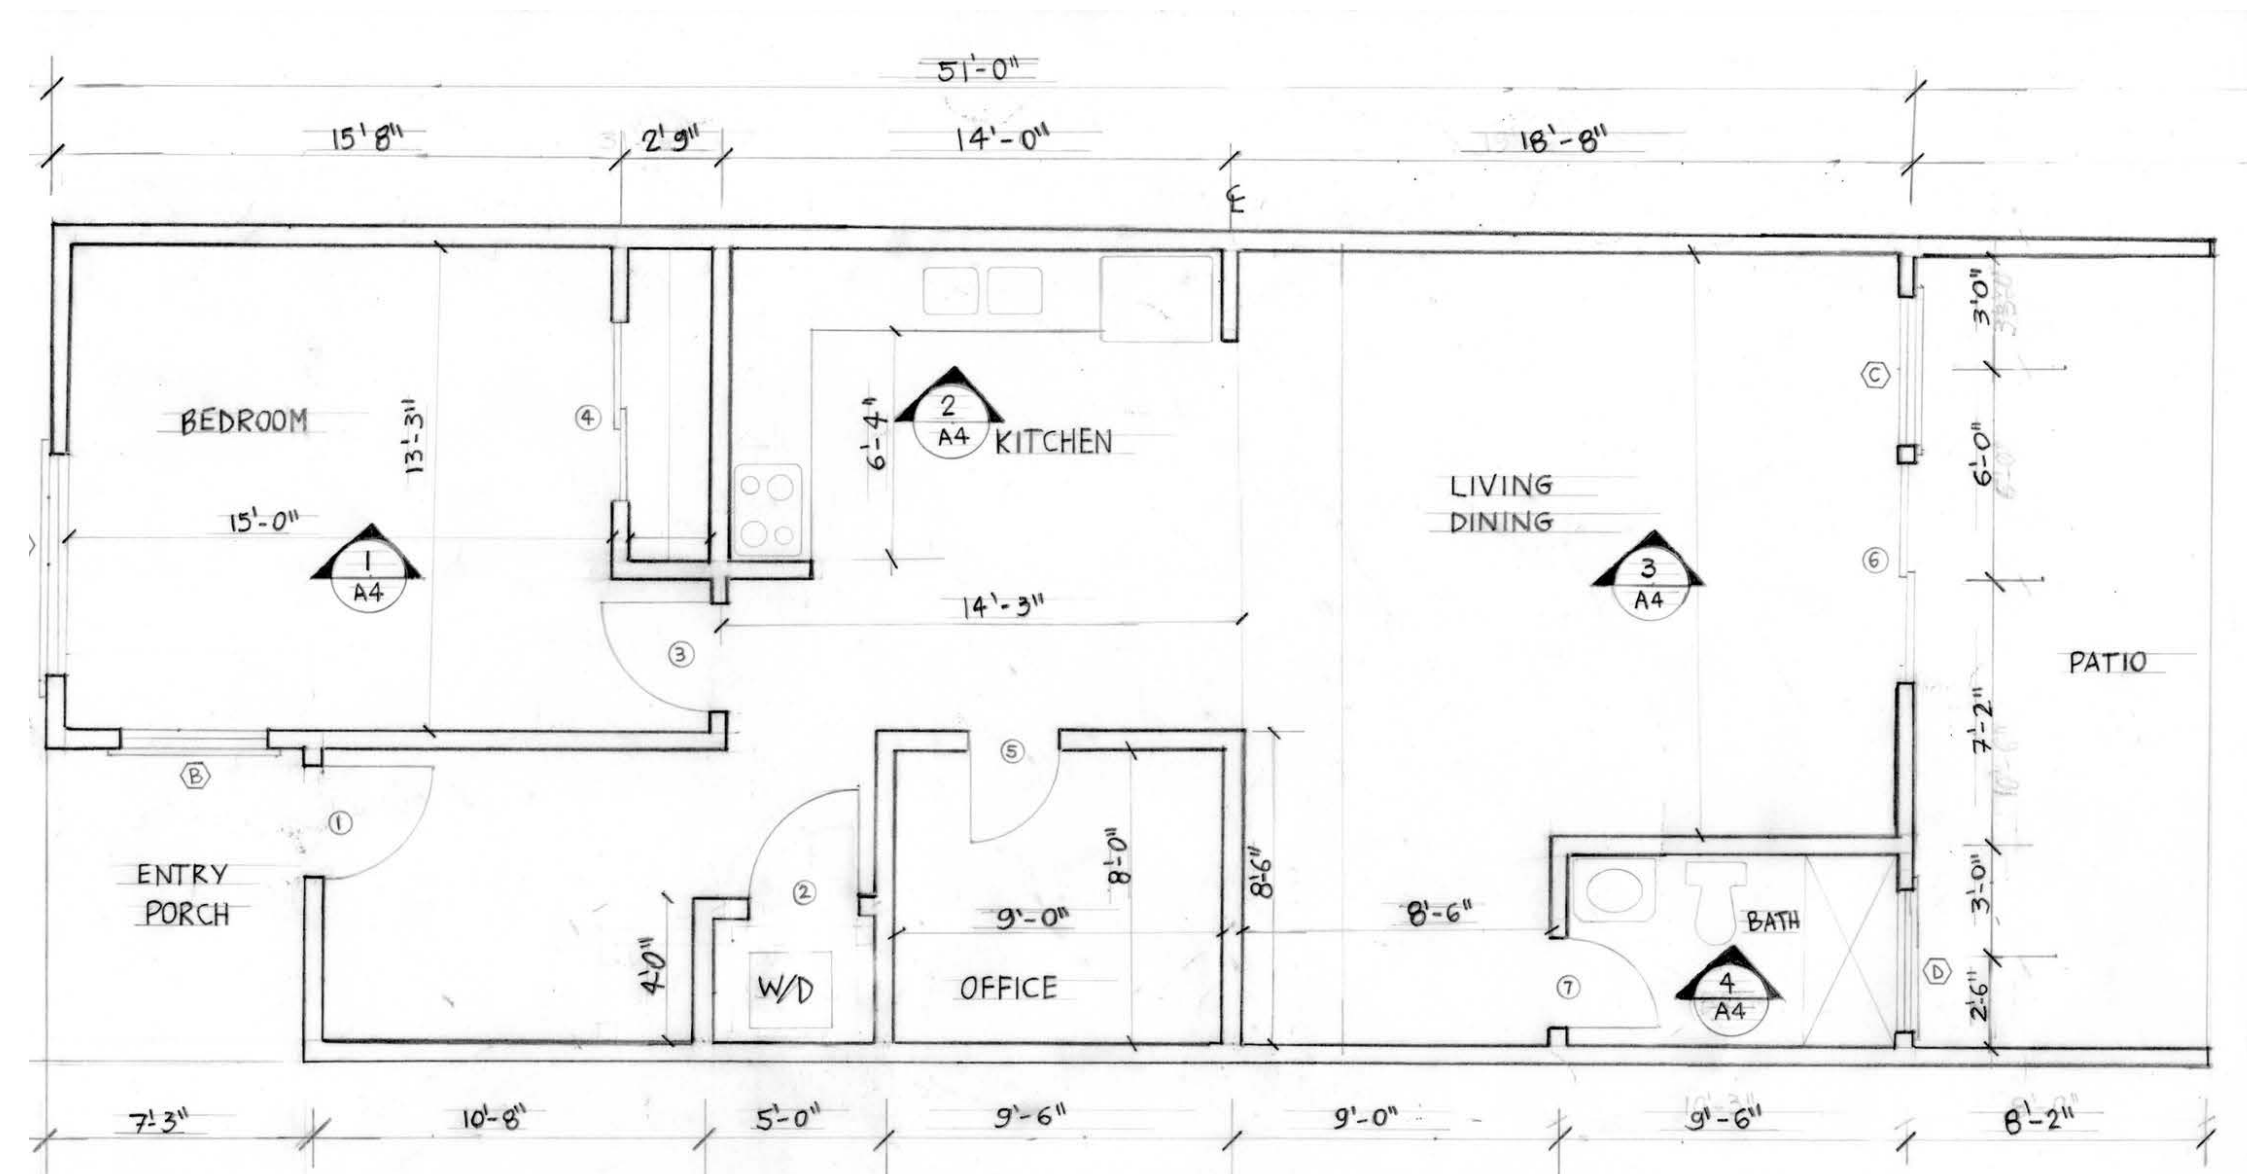

This bathroom renovation focused on transforming a small, dark space that included a narrow storage area at the back. The main challenge was bringing light and purpose to this unused zone. I added a skylight to illuminate the area and redesigned the former storage space into a clean planter feature with greenery. These changes enhanced the atmosphere, increased the sense of space, and created a more inviting experience overall.

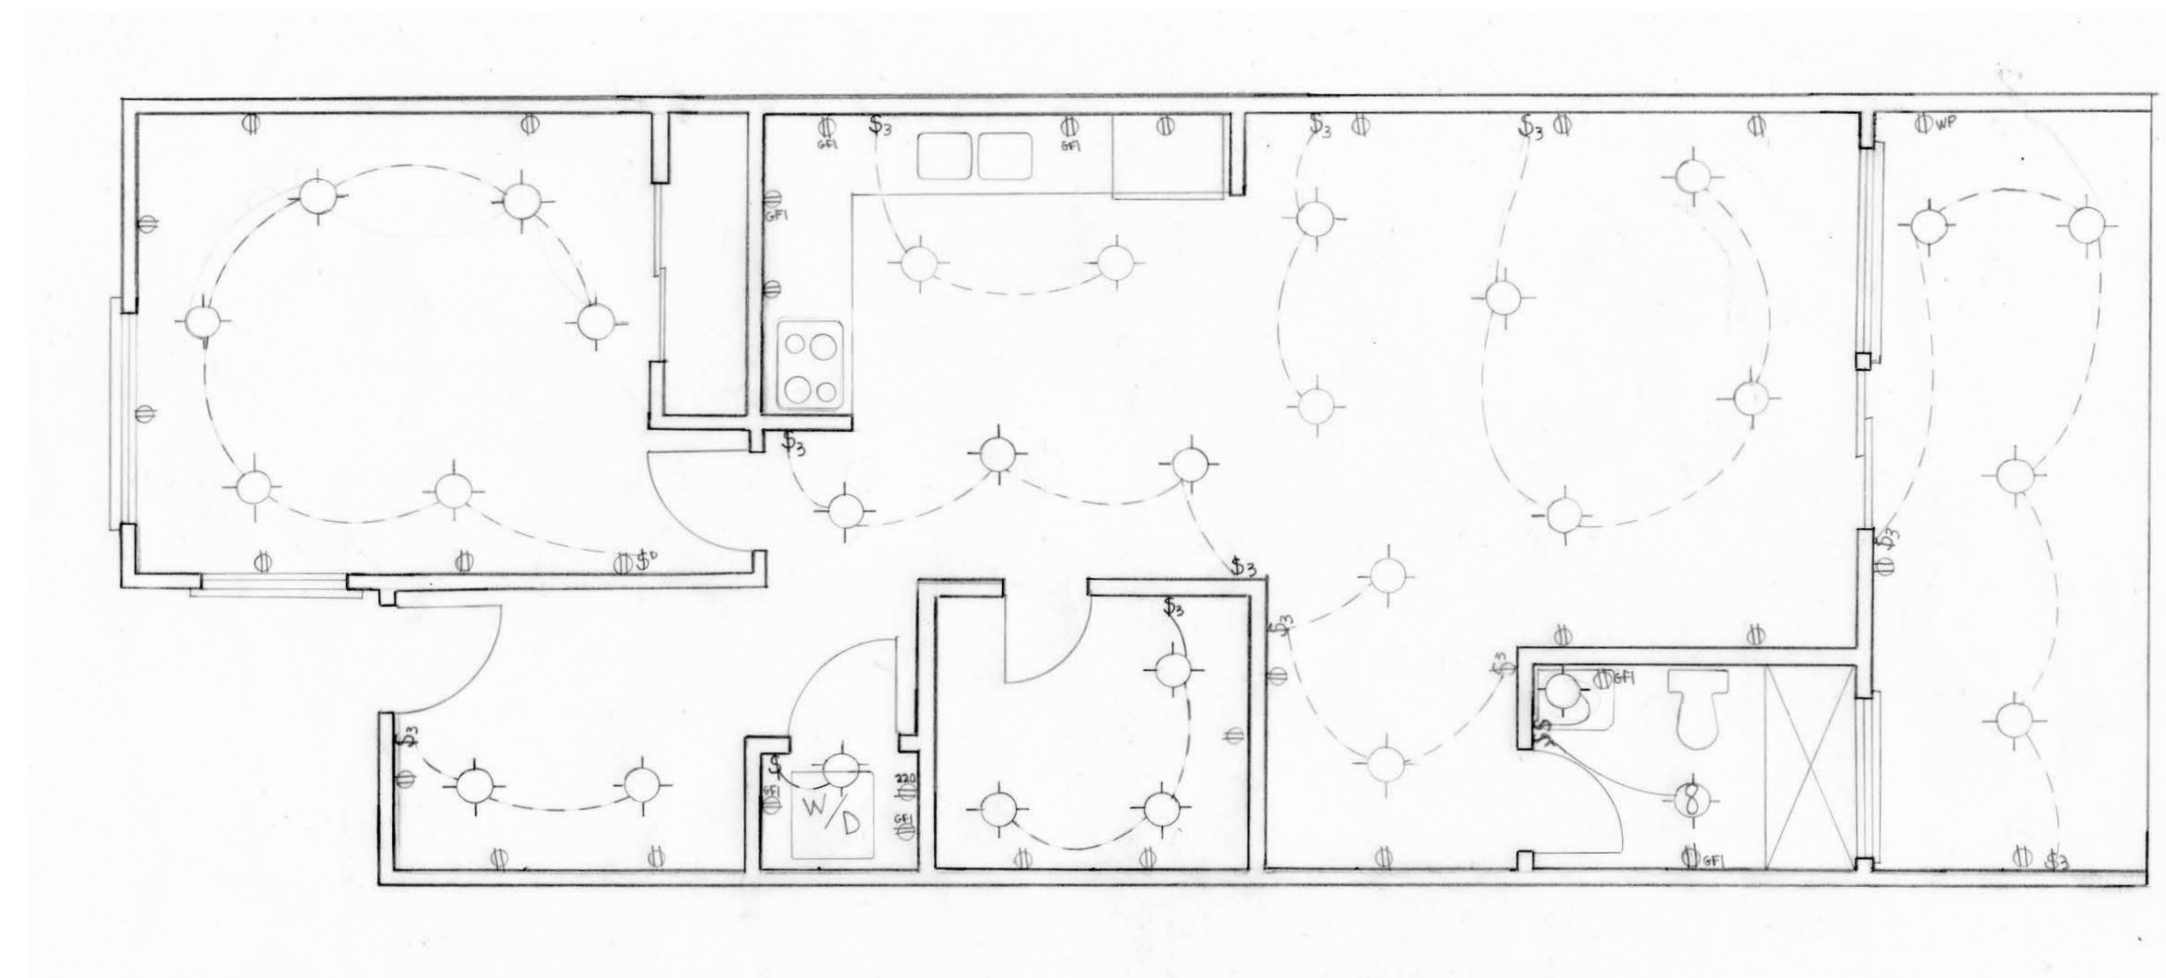

INDE 50

Drafting & Drawing

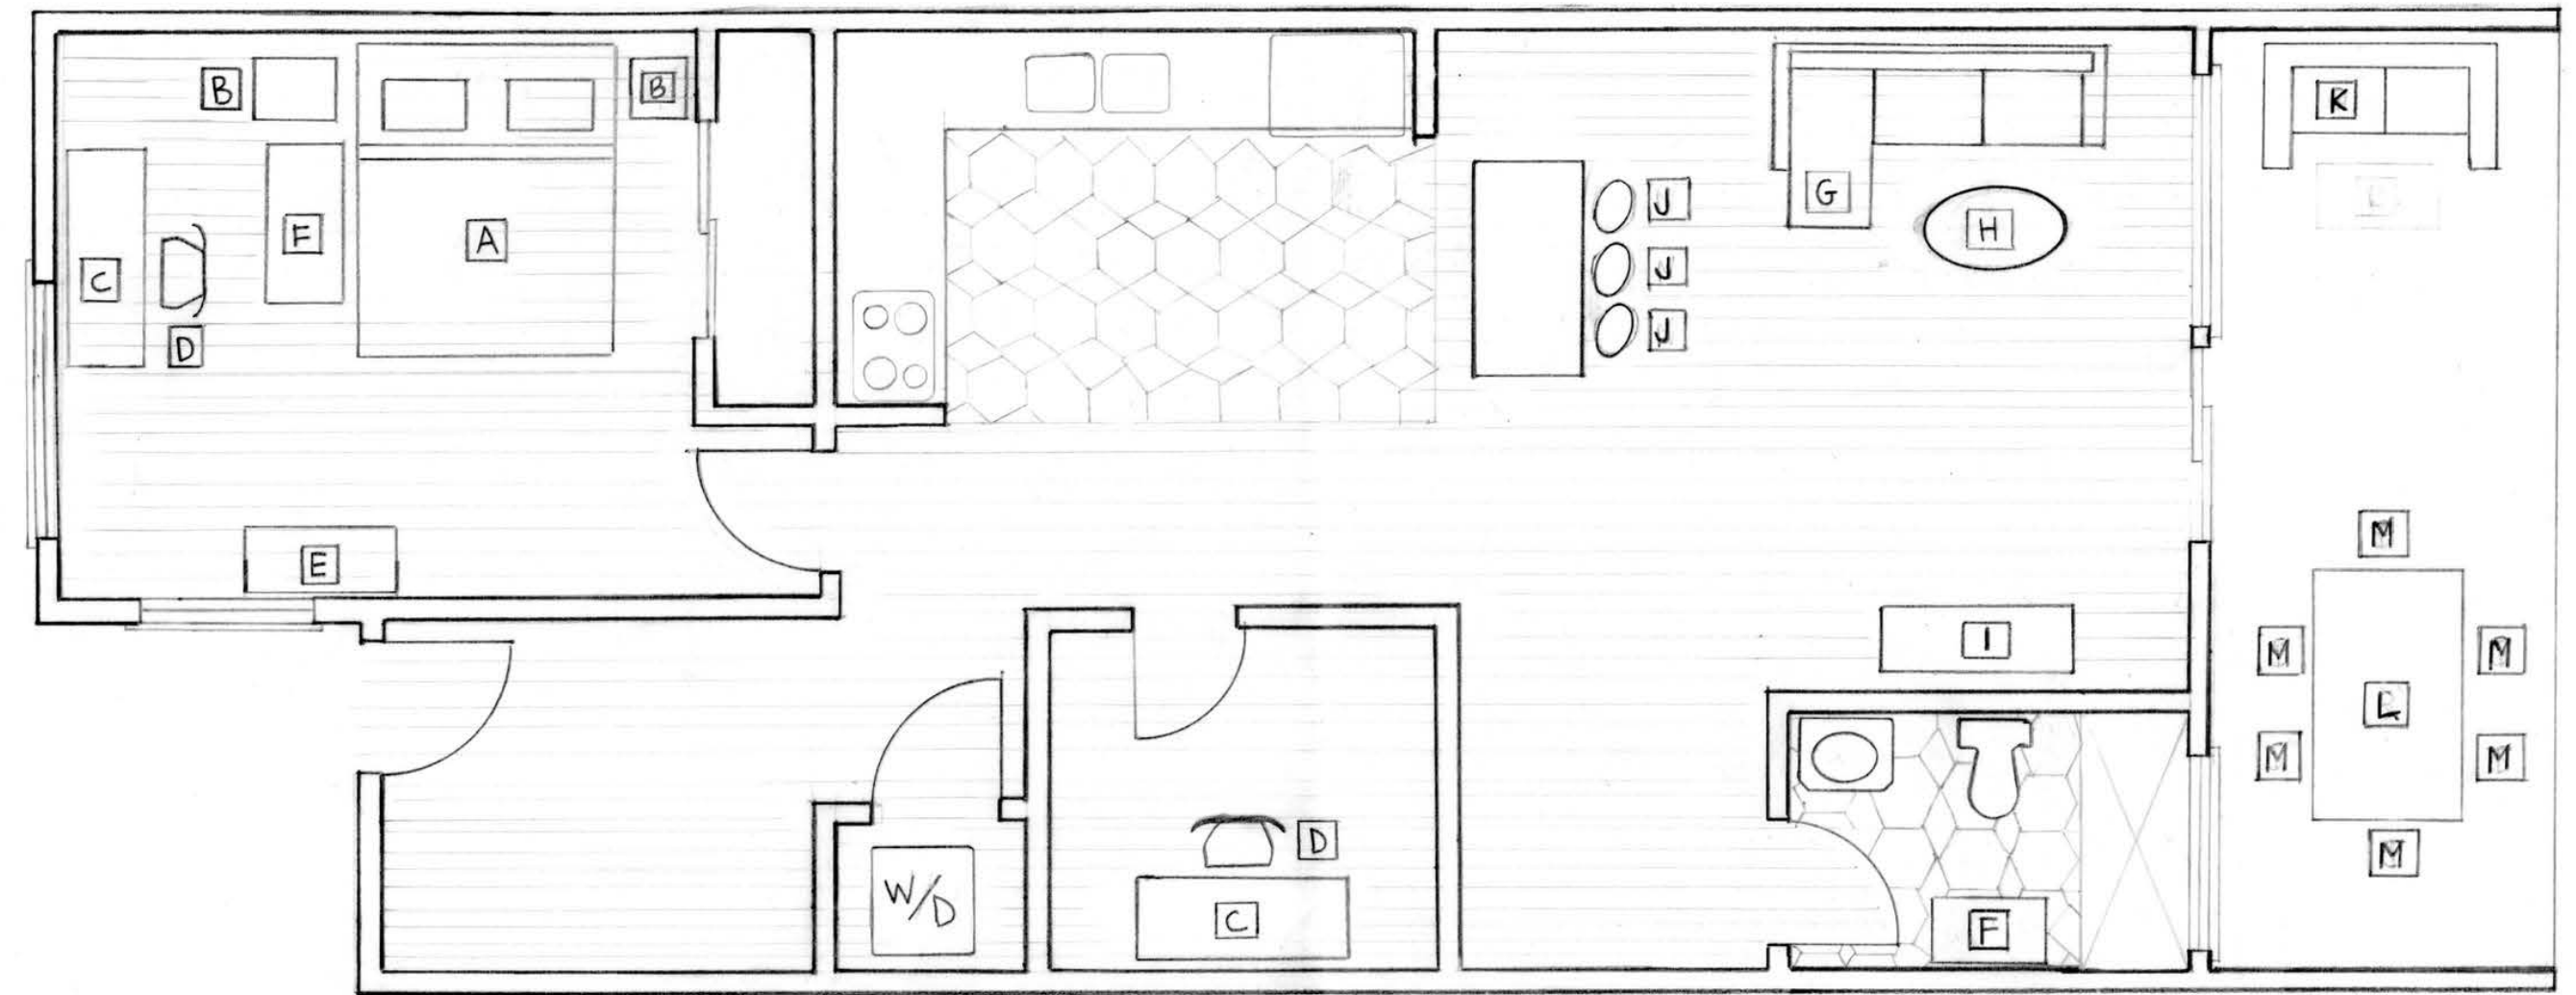

These are examples of hand drafted floor plans done in inde 52. This set of drawings showcases my skills in precision, scale accuracy, clean line quality and clear spacial communications.

INDE 71

Interior Design Studio

I collaborated closely with the team in selecting furniture and materials that reflected the client's preference for vintage and boho-inspired pieces. I also took part in the space planning process, helping to develop an efficient and inviting layout. The design aimed to create a lounge-style environment suitable for socializing, comfortably accommodating up to eight people. Overall, my contribution supported the creation of a warm, character-rich space aligned with the client's vision.

JONES ARCHITECTURE & DEVELOPMENT

Collaborated on the conceptual apartment design at Jones Architecture & Development, contributing to the development of the building's massing concept in SketchUp. This project is an unbuilt, early-stage study focused on exploring scale, proportions, and overall architectural form.

JONES ARCHITECTURE & DEVELOPMENT SKETCHUP CALLABORATION

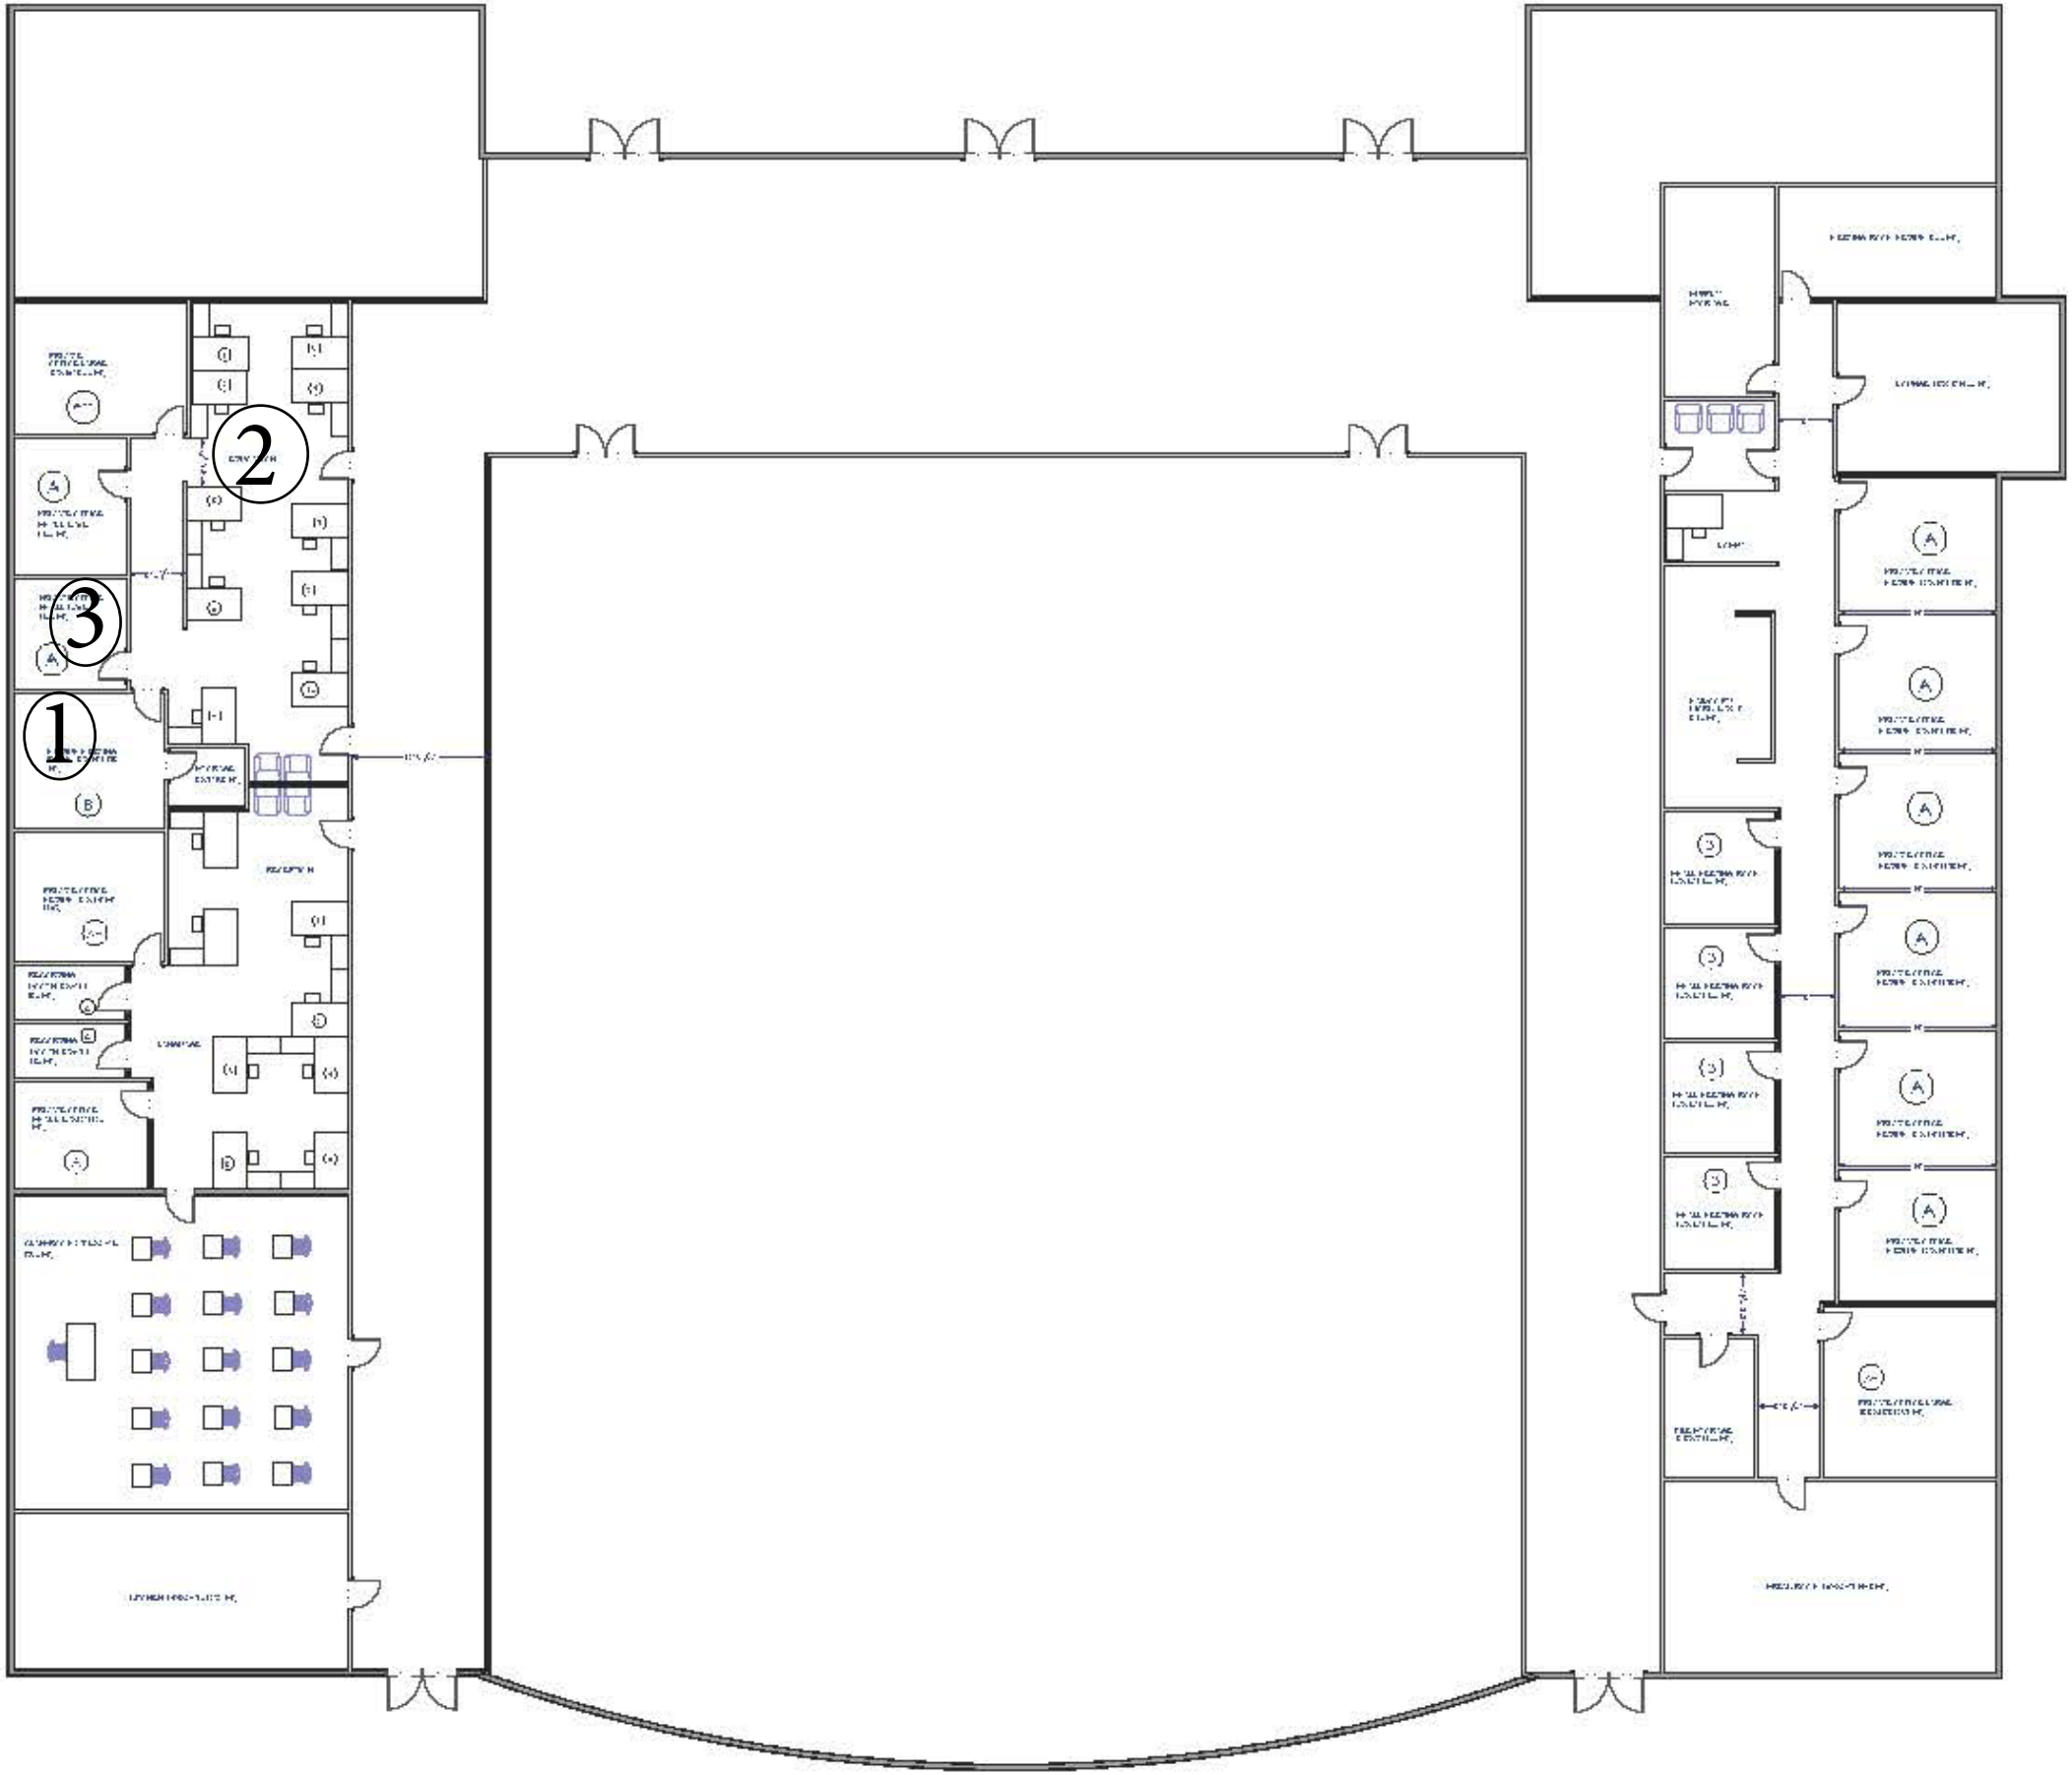

Collaborated on this sauna design in SketchUp at Jones Architecture & Development, contributing to the 3D modeling and spatial layout development.

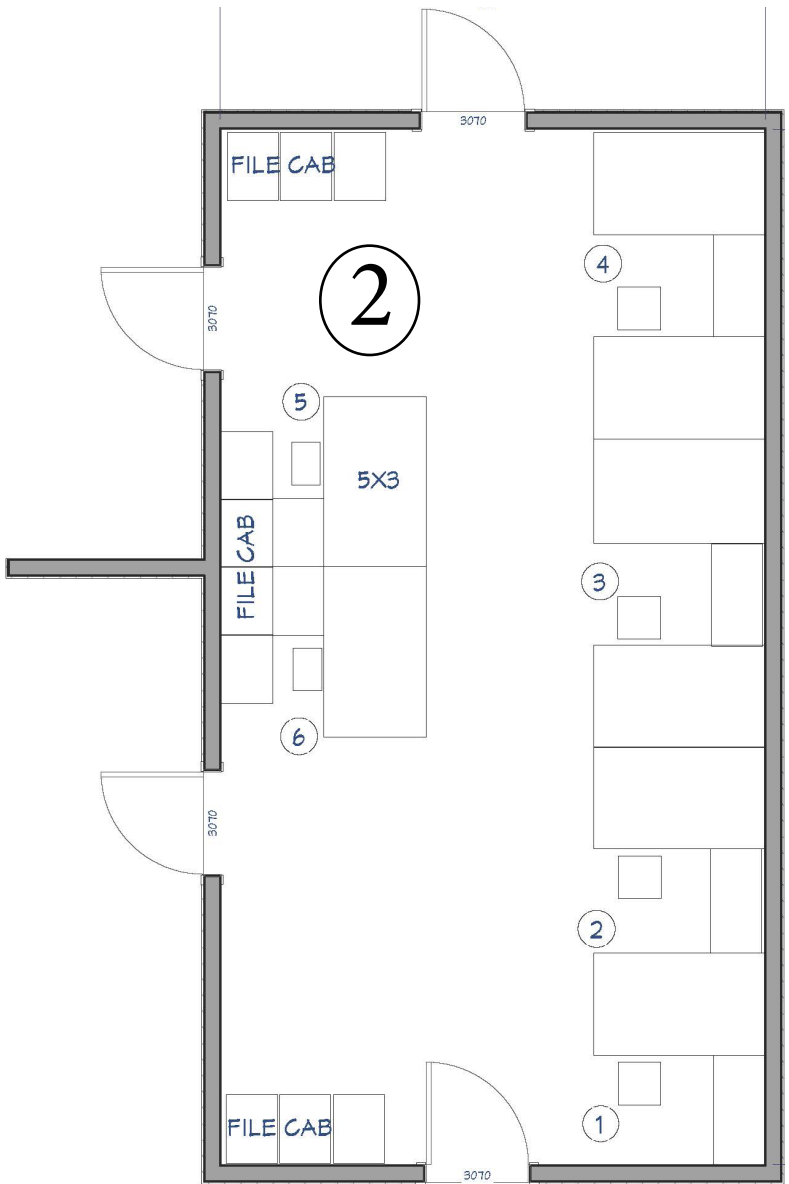

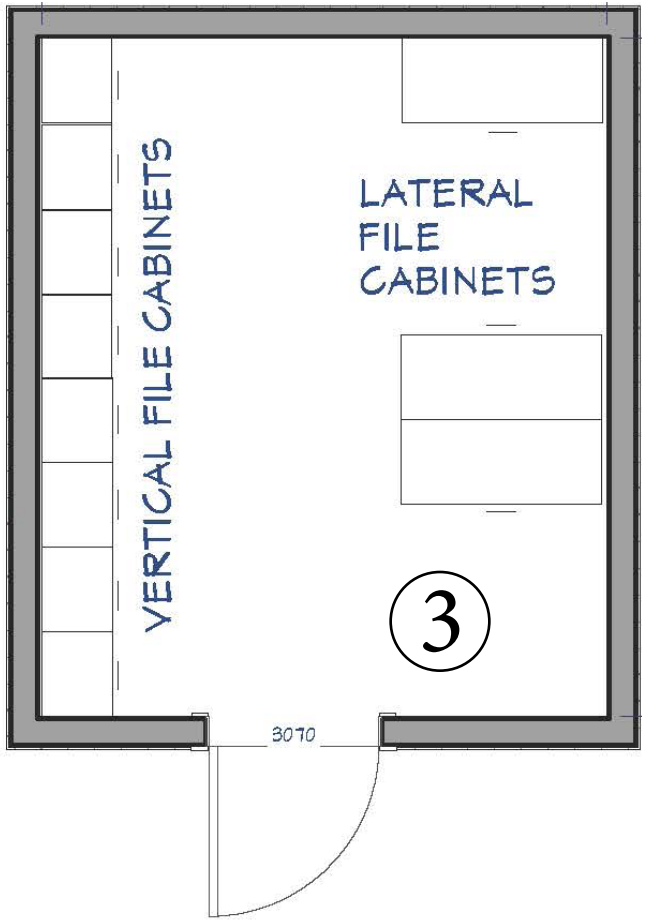

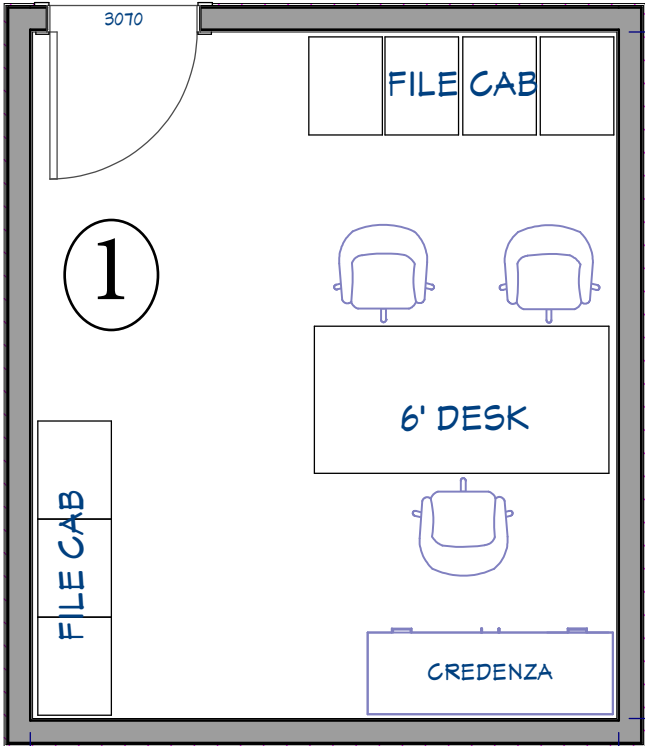

CHUKCHANSI TRIBAL CENTER

Collaborated in a support role with the project designer to develop a cohesive plan and schematic layout for the 55,000 sqft Chukchansi Tribal Center. Located in Yosemite, the project consists of a campus of five to six buildings and is currently in the design-development phase.

SCHEMATIC ROOM LAYOUT

EXTERIOR FINISHES

Contributed to the selection of exterior finishes, specifying thermally modified Accoya wood for durability and aesthetic appeal. This work demonstrates attention to material performance, sustainable design, and detail-oriented finish planning.

EXTERIOR FINISHES

Contributed to the exterior stone finish selection, focusing on smooth transitions between different materials to create a cohesive and visually balanced facade.
